

Indian Journal of Labour Economics

Published since 1957

Quarterly Journal of
the Indian Society of
Labour Economics

Editor: Alakh N. Sharma

- ▶ Leading journal in labour economics with an international editorial team
- ▶ Publishes original theoretical and empirical work related to labour markets and employment
- ▶ Occasionally publishes special/thematic issues
- ▶ Follows double-blind peer review process

The *Indian Journal of Labour Economics* (IJLE), with a legacy of uninterrupted publication for the six decades, is a leading journal in South Asia that provides social scientists and other experts a forum to contribute to analytical and policy research on labour economics, industrial relations, employment, demographics, human resource management etc. and their relation with development. The journal includes original articles, research notes, perspectives and reviews pertaining to India and other developing countries.
